OBJECTIVE

Aspiring Full Stack Web Developer with a strong foundation in ASP.NET, C#, and JavaScript, backed by a bachelor's degree in software engineering. Proficient in both front-end and back-end development with hands-on experience gained through academic projects and internships. Skilled in creating responsive and user-friendly web applications, database management. Enthusiastic about leveraging technical expertise and problem-solving skills to contribute to innovative web development projects.

EXPERIENCE

A Computer Teacher

Jordanian Ministry of Education | Karak, Jordan   Aug 2017 - Present

Dedicated and enthusiastic Computer Teacher with over 7 years of experience in teaching computer science and information technology to students of varying ages and skill levels.

EDUCATION

Full Stack Web Development Program

A Plus Academy | Amman   Aug 2023

Comprehensive program covering all aspects of web development, from front- end technologies (HTML, CSS, JavaScript, Angular 15, etc.) to back-end technologies (.NET Core Web APIs, MVC, OOP, etc.). The program also included topics and skills about Design Patterns, problem solving, Debugging…, etc.

The program offered 370 hours (around 6 months) given by a 10+ years experienced instructor in the field of software engineering. And at the end of this program, I created a complete project for E-Commerce Solution and used .NET Core Web API with EF Core as a back end, Angular 13 with Material design as a front-end, and SQL as a Database.

Bachelor's degree in software engineering

Al-Hussein Bin Talal University | Ma'an, Jordan   Jun 2016

LANGUAGES

Arabic (Native)

English: (Very good)

SKILLS AND TOOLS

- .NET Core 7 C#(web API + MVC
- OOP and Data Structure
- EF Core & ADO
- Debugging & Problem Solving
- Microsoft office

- IIS Hosting
- Microsoft Visual Studio & VS code
- Postman
- Git/GitHub & Azure DevOps
- MS SQL Server Management studio

- HTML & CSS
- Angular 15 & Bootstrap 5
- SQL Server & MySQL
- Systems Analysis & ERD
- Software Development

- JavaScript
- Design Patterns
- Async Programming
- Agile Development & Scrum

PROJECTS

PhotoVerse.   Oct 2024

A Photographer Blog management System developed using ASP.NET Core with Entity Framework (EF) Core and MySQL can serve as a platform for photographers to showcase their work, share insights, and engage with their audience.   https://www.photoverses.com
